-  Faster runoff of rain and snow
-  Protects interiors from fading
-  Helps maintain vehicle value

PERFORMANCE

Thickness:	4 Mil	Total Solar Energy Rejected :	13%
Visible Light Transmittance :	90%	U-Factor Day Winter :	1.12
Visible Light Reflectance :	9%	Shading Coefficient :	0.98
Solar Energy Transmittance :	83%	SHGC :	0.87
Solar Energy Reflectance :	7%	Emissivity :	0.88
Solar Energy Absorptance :	10%	Glare Reduction :	1%
UV Transmittance :	<1%		

NOTE

All values as applied to 1/8 inch clear glass. Test results are representative of actual production and may vary from batch to batch.
